Price : £2.50

SCPDSA AWARD WINNER

Games : Leotrope 2 - Spectrum Graphic Adventure - REQUIRES SPECTRUM 48K ROM TO OPERATE.

Demos : BALLS - Machine code demo using balls to build up shapes. The shapes are animated, and include a rotating gun turning into a helicopter, Newton's Cradle, SAM Coupé logo and other effects.

Waver - A ripple effect is applied to a screen.

Colour Whizzer - Makes the full 128 colours traverse the screen, with various effects to the screen display.

Over 3 demo - Various BASIC drawings using OVER 3.

Solar system viewer - Fantastic program that allows any of 64 stars to be viewed at any other location.

Utilities : Colour Dump printing utility - REQUIRES COLOUR PRINTER. Allows a colour chart to be printed, giving several hundred colours. The user then has the ability to choose exactly which colours are to be used for the screen dump, and can match the colours accordingly to the screen, displaying which colours go where. The default values are set for the King Tut screen (as on SAM demo disk), with photographic-like reproduction on printing. This program also caters for palette line interrupts, and is recommended by the SCPDSA as the colour dump utility to use, as it is so flexible. The best PD utility around!

FLASH! - allows the art package to have various updates, including SCREEN\$ save and scaling.

Compressor - Advances screen compressor that de-compresses screens upon loading.

LC200 - Test print routine - REQUIRES PRINTER

BIG TEXT - giant text printing routine.

Interrupts - Colour Cycler - MC routine.

Slow-downer - Slows the Coupé down.

NLQ Font Designer - REQUIRES PRINTER

Text Compressor - saves space in text files.

Relion Word - Word processor. One of the best around

Mode Switcher - update on horizontal mode switcher, that allows BASIC to run while in operation.

Features : Editorial - News, reviews, letters, PD column, FLASH! help, etc. Text compressors are used.

Tutorials : SAM BASIC guide - Part 3

Overall : Fantastic colour dump utility. The balls demo is good, although a little sound would have been nice, and the other demos and utilities are out of this world. Compressors are used to allow a lot of data on the disk.

NEW SOFTWARE - Info & registration

ORDER : Z-INFOREG

Price : FREE

Are you thinking of selling your own PD software? If so, quote the above code for information about PD software distributed through SAMsational Software. Included is a short questionnaire and registration form. Note : If you already have some software, send it in, so we can consider your potential. Demos and completed version are welcome.

WALKER DEMO - PD film demo disk

ORDER : D-SUPP002

Price : £2.00

SCPDSA AWARD WINNER

Animation : Scenes from The Empire Strikes Back - involving the AT-AT walkers. This demo was very popular on the Amiga and Atari ST, and has been converted from the Amiga version. It even features small sound effects for firing.

REQUIRES 1.2Mb MEMORY AND MASTERDOS

Overall : Fantastic demo. As with many other Coupé demos, you would be fooled in thinking that you were using a 16 bit machine. Highly recommended.

MEGA DEMO - Animated conversions

ORDER : D-SUPP003

Price : £3.99

SCPDSA AWARD WINNER

Animation : Newton's Cradle - High quality colourful animation converted from the Atari ST demo. Good 3D and perspective effects.

Stealth Flypast - Amiga conversion, involving a stealth fighter flying over a landscape. The graphics are filled wireframe graphics, and the quality is very good.

Frog on a swing - Exactly what it says. This cute colourful demo comes from the Amiga.
ALL DEMOS HERE REQUIRE 512K

Overall : Great demos, all highly acclaimed on the Amiga and ST and now on the Coupé.

XAV DEMO DISK 1 - PD demo disk

ORDER : D-XAVX001

Price : £1.20

Samples : KLF Demo - REQUIRES SOUND SAMPLER

DISCO - Sound to light program - REQUIRES SAMPLER

Screens : Artwork/generated mix - 10 screens

Utilities : Text editor - Simple word processor

Fractal - Fractal drawing generator

WINDOWS - SAM TOP - Front end software for the Joymouse. Joystick can also be used.

Overall : Well presented disk.

THANKYOU FOR SUPPORTING
THE SCPDSA AND THE SAM COUPÉ.

RATINGS : V-POOR, POOR, FAIR, GOOD, AWARD. DISKS THAT ARE CONSIDERED VERY POOR ARE INCLUDED, SO AS TO ALLOW ACCESS TO THOSE WHO MAY WANT TO PURCHASE THE SOFTWARE FOR THEIR OWN REASONS!

MEMORY - 256K, 512K, 1.25MB 1.5MB, AND SO ON.

- DUAL MEMORY VERSIONS WILL FEATURE 256K AND 512K VARIATIONS OF THE SAME SOFTWARE, THE 512K VERSION MAY BE ENHANCED, TAKING ADVANTAGE OF THE EXTRA MEMORY.
- NOTE : ON 256K DISKS, 512K USERS ARE RECOMMENDED TO HOLD THE SHIFT KEY DOWN ON POWER UP, AS THE SOFTWARE MAY BE ADDRESSING A 256K SCREEN. THIS PUTS THE MACHINE INTO 256K MODE. SOFTWARE SHOULD NORMALLY WORK ON BOTH MACHINE FORMATS.
- X.YMB WHERE X IS THE NUMBER OF EXTERNAL 1MB MEMORY CARDS REQUIRED, AND Y IS THE INTERNAL MEMORY REQUIRED (2=256K, 5=512K).

CHEQUES MUST BE MADE PAYABLE TO "SCPDSA". THEY CAN BE MADE PAYABLE TO "SAM COUPE PUBLIC DOMAIN SOFTWARE ASSOCIATION", BUT WE THINK THIS IS UNNECESSARILY LONG, AND JUST WASTES INK!

ANY QUERIES, PHONE (081) 546 5809.

ALTERNATE METHODS OF PAYMENT ARE POSTAL ORDER, INTERNATIONAL MONEY ORDER, EUROCHEQUE, AND CASH. CASH SHOULD BE SENT BY REGISTERED MAIL. COINS SHOULD BE TAPED TO A PIECE OF THICK CARD THE SAME SIZE AS THE ENVELOPE.

FOR OVERSEAS CUSTOMERS, WE CAN OPEN AN ACCOUNT FOR YOU. THIS REQUIRES KEEPING A BALANCE TO COVER THE COST OF ORDERS, AND ANY FUNDS LEFT WILL BE HELD OVER FOR FOLLOWING ORDERS, INCLUDING TEAM SAM PRODUCTS. NO CHARGE WILL BE MADE FOR THE SERVICE. THE ACCOUNT CAN BE CLOSED AT ANY TIME, WITH THE REMAINING BALANCE RETURNED, AND CAN BE RE-OPENED AGAIN WHEN YOU PLEASE. THIS IDEA HAS BEEN PUT FORWARD, AS INTERNATIONAL MONEY ORDERS USUALLY HAVE A FAIRLY LARGE CHARGE ADDED, AND FREQUENT ORDERING IS VERY EXPENSIVE. IT IS CHEAPER TO SEND LARGE AMOUNTS SELDOMLY THAN TO SEND SMALL AMOUNTS OFTEN. PLEASE ENCLOSE YOUR TELEPHONE NUMBER WITH WRITTEN INQUIRIES
